## COUNCIL FIXES TAX RATE FOR FISCAL YEAR

Six and One-half Mills on the Dollar This Year's Assessment Rate

Property in Tempe will be assessed for the fiscal year at a rate of six and one-half cents on the one hundred dollar valuation, according to the levy made by the council at its special meeting Tuesday evening. That item along with various other matters related to taxation and property valuations were current matters with the council and occupied a full evening's time to straighten out the last final details of this year's assessment work before it is complete and turned over to the clerk.

\$18,768.00 are asked for by the council to meet the public expenditures for this year. September 1st, 1914, to August 31st, 1915. Of this amount \$10,261.00 will be covered by receipts from the water department, licenses, fines, dog tax, sprinkling, irrigation, tapping water mains, and the interest on loans from the sinking fund. The remainder, \$8,507.00 will be raised by direct taxation on real and personal property in Tempe at the rate of assessment as prescribed by the council at the Tuesday night session.

This year's tax levy is less than that of a year ago, by ten cents on the one hundred dollars.

Manicue Coming  
The lecture and entertainment course once more springs into the limelight on Monday evening with his presentation of another number by Halwood Robert Manicue, the man of many faces. Though unaided in his work, the entertainer furnishes a class of program that should appeal to his character of delineation he is an Irishman, Swede, Jew, Dutchman, Frenchman, Italian, Jew, old man, maniac, grouch, silly kid, tramp, dupe and what not. The entertainment by Manicue will no doubt be quite a novelty to a local audience.

LITERARY DEPT. SESSION  
The literary department of the Tempe Woman's club will meet at the home of Mrs. W. H. Strong on Ash avenue at three o'clock Saturday afternoon of this week. The program will be on Washington, D. C., and is certain to be an attractive one. It will be under charge of Mrs. A. B. Clark, Mrs. J. R. Baunters, Mrs. W. H. Strong and Mrs. D. L. Antonio. The business for the day will include the election of department officers and the arrangement of a new program for the new year. This is one of the most important meetings of the season and is worthy of the attendance of all members.

A PURITY LEAGUE ORGANIZATION MADE

Three Hundred Present to Hear Addresses Against Slave Traffic Tuesday Evening.

It is estimated that fully three hundred people were present in the First Ward Chapel Tuesday evening to hear the addresses given against the White Slave traffic, which it was said, is especially active at this time on account of the Panama-Pacific exhibition to be held at San Francisco, commencing the 20th of this month.

The addresses were along lines denunciatory of the traffic and the most logical methods yet evolved for the eradication of the crime. Rev. Forsythe, of the Baptist Church, had for his subject "The Method of Procurement," and in the course of his remarks gave the plan by which the evil could best be eradicated or at least lessened. President Elijah Allen, of Maricopa State selected for the subject of his address, "The Home." He had particular stress upon the idea of making the home such a place that there would be no excuse for leaving it for any reason. His remarks were timely and along the line of modern thinking. Rev. Summers of the Methodist Church talked upon the subject of "Perils of Adolescence" wherein he confined himself more especially to the pitfalls offering temptations during the formative and the best means of avoiding them. The address of Rev. S. Sidney Madoxon on "The Great Crisis" was filled with thoughts for the consideration of those present and calculated to bring them to a realization of the necessity for action in perfecting an organization along purity lines.

The organization includes a secretary and a representative in each of the local church organizations. Rev. Forsythe was made secretary

Oiliness

Without "oiliness" any lubricant would be worthless. You can feel the oiliness of Zerolene by pouring a little on a piece of glass and rubbing it around with your finger. Oiliness is in reality the molecules of the oil rolling over each other—miniature ball bearings as it were. Thus when you use a good oil like Zerolene the wearing surfaces of your engine roll over these "ball bearings" instead of rubbing together. Dealers everywhere.
